SOCCER SHOTS PARTNER FAQS

HEALTH & SAFETY ON SOCCER ISLAND

Review the adjustments our coaches will be making during your scheduled season and stay informed on our modified safety procedures related to Covid-19. As always, our focus is providing your family with a quality, educational, and fun soccer experience!

During sessions our coaches will:

⚽ Avoid high-fives, fist bumps and unnecessary physical contact

⚽ Wear a face covering if our state and/or local jurisdiction requires or recommends doing so

⚽ Use rings, spots or blue cones as "home base" to keep children spread out when possible

⚽ Request that equipment be cleaned up and put away only by the coach

⚽ Continue to remind children the importance of keeping safe distances when practicing skills

⚽ Avoid the use of pinnies

⚽ Use a modified Soccer Shots cheer at the end of the session

⚽ *Additionally, coaches will be sanitizing all equipment before and after each session. We will do our best to use smaller group sizes and/or larger field setups to allow for the distancing of participants and observers.*

COVID-19 POLICY

This policy is being implemented to operate our Soccer Shots program safely, with the help of experts in the field of health and medicine, and in accordance with local health guidelines. This policy is subject to change as new information and recommendations become available. If local guidelines change, we will update this policy accordingly.

Mask Requirements & Vaccination:

For Parents

⚽ Fully Vaccinated Adults are not required to wear a mask while attending our program.

⚽ *If you are NOT vaccinated, you are required to wear a mask on Soccer Island and on the sidelines if you are not at least 6-feet away from the nearest person from outside of your household.*

⚽ Vaccines are now readily available, and you can visit this link to find a vaccine available near you!

For Children

⚽ Children engaging in activities are <u>not required</u> to wear a mask while participating in our program.

⚽ *Children <u>are required</u> to wear a mask in and out of the park/location, on the sidelines, and during intervals between activities.*

For Coaches

⚽ Fully Vaccinated Coaches are <u>not required</u> to wear a mask while teaching our program.

⚽ Fully Vaccinated Coaches <u>are required</u> to provide a record of vaccination to the Soccer Shots Leadership Team.

⚽ *If a coach is NOT vaccinated, they <u>are required</u> to wear a mask while teaching our program.*

Spectator Limits:

⚽ We are requesting that families adhere to a <u>*two spectator limit per family*</u> in an effort to respect local crowding recommendations, operate within capacity limits agreed upon with our local partners, and reduce the overall foot-traffic at our programs.

⚽ *Some locations may limit spectators in attendance to one family member per child or other family member-to-child ratios. In these instances, specific spectator policies will be adhered to by Soccer Shots in agreement with their Partners. Parents will be notified regarding these location-specific guidelines in their Welcome Letter prior to the start of their season.*

Arrival / Dismissal:

⚽ We are requesting that families remain in their vehicles and approach Soccer Island as close to their scheduled start-time as possible in order to provide our coaches with ample time to disinfect their equipment and limit contact among participants in-between sessions.

⚽ We are requesting that families leave Soccer Island at the conclusion of their scheduled end-time in a timely manner in order to limit contact among participants in-between sessions.

Symptom Monitoring:

⚽ We are requesting that families do not attend Soccer Shots if any member of their household is experiencing symptoms associated with Covid-19, especially a fever of 100.4°F or more in accordance with local health guidelines.

⚽ We are requesting that families do not attend Soccer Shots if any member of their household has tested-positive for Covid-19 and has not yet been cleared to return to the program by a contact tracer and/or health care provider.

Contact Tracing:

⚽ If a member of your household has tested-positive for Covid-19, we are recommending that you reach out to the Pennsylvania Department of Health for guidance. Call 1-877-PA-HEALTH (1-877-724-3258).

Quarantine Protocol:

⚽ If your child has *tested-positive* for Covid-19, they must self-quarantine for a minimum of 10-days after their positive test result before returning to Soccer Island.

⚽ This is in accordance with the most recent CDC recommendation titled "Isolate If You Are Sick", which you can read here!

⚽ If your child has had *close contact* with someone Covid-19-positive, they must self-quarantine for a minimum of 10-days after the initial contact before returning to Soccer Island.

*If your child tests-negative for Covid-19 (provided the test was taken at least 5-days after initial contact), they may return to Soccer Island as early as 7-days after the initial contact.

⚽ This is in accordance with the most recent CDC recommendation titled "When to Quarantine", which you can read here!

DISCLAIMERS

Policies and disclaimers for the upcoming season require a signature at the time of checkout. Credits (Partial or Full) will be issued for any school, site, or field closure due to natural disaster, government emergency, health crisis, non-essential business closure, youth sports closure, or other fortuitous events. Refunds (Partial or Full) will not be issued for any school, site, or field closure due to natural disaster, government emergency, health crisis, non-essential business closure, youth sports closure, or other fortuitous events.

We will continue to monitor all recommendations and requirements related to Covid-19 and update this policy accordingly to operate within the guidelines set forth by our local health department and trusted partners.
